**DETAILED ACTION**

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-42, 86-126, 169-209, 253, drawn to an IPG with series reminder, classified in class 725, subclass 58.
  - II. Claims 43-85, 127-168, 210-252, 254, drawn to an IPG with series recording, classified in class 725, subclass 39.
2. The inventions are distinct, each from the other because:
3. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as providing reminders to users in the form of TV commercials or advertisements that are IPG-independent. Invention II has separate utility such as recording series with a conventional VCR absent an IPG interface. See MPEP § 806.05(d).
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 2611

5. A telephone call was made to Mr. Victor Treyz on June 18, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
